WRITING PROMPTS

Glue this page into your science or writing journal. When you use a prompt, write the number on the next page in your journal. Then write a detailed response. Check off the prompt on this page so you know you have used it.

LETTUCE
GROW

- 1. A benefit is a good or helpful result. What kinds of benefits, or good results, come from growing your food?
- 2. What is the difference between a seed and a seedling?
- 3. How do roots and stems work together?
- 4. Describe the steps you take to grow plants in The Farmstand to someone who has never seen or used one.
- 5. What does it mean to harvest plants?
- 6. Compare and contrast two different plants grown in your Farmstand. Describe how each plant grew. Then tell how each plant looks and tastes.
- 7. Write a true story about an event that happened with The Farmstand. Tell who was there, what happened, and how you felt. If you learned a lesson from the event, tell that too.
- 8. Pretend that another school is curious about whether they should get a Lettuce Grow Farmstand. Write to explain your opinion.
